

Supervisor Revalidation (Low Category Aerodrome RFF Category 2) Structured Learning Programme

DURATION: 3 days fully residential

TARGET GROUP

The programme is designed for personnel who have already successfully completed the Low Category Aerodrome Supervisor initial programme or equivalent and have consolidated that knowledge with further application in the workplace.

See additional information contained in NOTAL 7/2002

PRE ATTENDANCE REQUIREMENTS

The training is of a very physical nature and licence holders should assess the medical and fitness suitability of all personnel detailed to respond as part of the RFFS, therefore students attending must be medically fit to carry out such work.

The programme may be offered to any persons having a current Certificate of Competence as a Supervisor (Low Category Aerodrome) or equivalent or one which has expired within the preceding six months.

AIM

To revalidate the core skills required of those persons in a supervisory capacity for fire and rescue service duties at Lower Category Aerodromes and to enable them to carry out basic training at their respective airports.

The structured learning programme will be formally assessed through written and practical assessments. On successful completion of the programme the individual will be issued with an appropriate certificate of competence. The period of validity of the certificate of competence will be 4 years

OBJECTIVES

At the end of this programme the student will be able to:

Demonstrate a level of competence commensurate with the role/responsibility of a supervisor on a Low Category Aerodrome and apply the appropriate tactics and techniques used when dealing with various simulated aircraft accident/incidents likely to be found at Category 1 and 2 aerodromes.

International Fire Training Centre

About IFTC

The International Fire Training Centre is a leading global resource offering an unrivalled range of specialist training, educational and consultancy services to the firefighting community worldwide.

We produce elite, fully accredited firefighters of the highest calibre who have the skills, knowledge and confidence they need to protect and safeguard your people, assets and reputation in even the most extreme environments.

In addition to our world-class training and educational programmes, our international network of trusted and experienced fire specialists provides expert consultancy services to clients across the globe.

As a progressive, groundbreaking organisation we have built a proven reputation over three decades for sustained innovation, unparalleled industry knowledge, and customer service excellence that is second to none.
